Colonel Robert J. Dacey, USA
District Engineer
U.S. Army Engineer District, St. Louis
210 Tucker Boulevard, North
St. Louis, Missouri 63101

Dear Colonel Dacey:

Friday, March 28, 1980, we were provided a copy of the proposed trace metal study of the Big River, Missouri. The report was provided to our office by the Kansas City Area Office of the U.S. Fish and Wildlife Service. We have no record of receiving a copy of the study from your office although our Agency is identified as one of four agencies that was sent copies of the report.

We intend to submit comments on the proposed study. However, because of the shortened review period available to our staff, we are unable to provide a comprehensive review by your April 1, 1980, deadline. We will complete our review as expeditiously as possible and provide comments to your office on or before April 11, 1980.

Sincerely yours,

Kathleen Q. Camin, Ph.D.
Regional Administrator
